Visual Studio Code

- Install Visual Studio Code from: https://code.visualstudio.com/
- You can open new projects by going to the `File > Open` tag, to etierh open a folder containing your project or a single file

- Some useful keyboard shortcuts are:

    - `command + b` : to close/open the file navigator
    - `command + shift + p` : to open the prompt

- To install extensions open the prompt with `command + shift + p` and type:

    - `> install extension`

- Open the shortcuts settings from `Preferences > Keyboard Shortcuts` , and then you can add your own shortcuts:

```
// Place your key bindings in this file to overwrite the defaults
[
  {
    "key": "cmd+t",
    "command": "workbench.action.quickOpen"
  },
  {
    "key": "shift+cmd+r",
    "command": "editor.action.format",
    "when": "editorTextFocus"
  }
]
```
